EXPERIENCE

Tanmeyah (EFG Hermes) June 2026 – Present

Data Analyst – Predictive Risk and Data Analytics

- Analyze lending and repayment data to identify emerging credit risks, monitor customer payment behavior, and support risk management decisions.
- Automate recurring data processing and management reporting using Python and Oracle SQL, reducing manual effort and improving reporting efficiency.
- Develop dashboards, performance scorecards, and reports for management and the Board of Directors to communicate findings and highlight areas requiring action.
- Use Oracle SQL and Python to extract, clean, and validate data from multiple sources, ensuring accurate and reliable analysis.

Route Academy November 2025 – April 2026

Data Analyst Trainee

- Transformed raw data into actionable insights using Excel, Power BI, and Python.
- Designed dynamic dashboards in Power BI, improving data visualization and reporting efficiency.
- Automated data cleaning processes using Power Query, reducing manual effort.
- Applied DAX formulas to create calculated measures and enhance data models

Information Technology Institute (ITI) September 2025 – October 2025

Business Intelligence Trainee

- Completed 120 hours of intensive training in Business Intelligence and Data Analytics, covering the full BI lifecycle from data extraction to visualization.
- Gained hands-on experience with SQL, Power BI, Tableau, Excel, and Data Warehousing concepts.
- Applied ETL processes and designed data models to generate actionable insights.
- Worked on practical projects focused on data-driven decision-making and reporting.

Bariq August 2024 – August 2024

AWS Cloud Intern

- Gained practical experience with AWS (Amazon Web Services), including cloud deployment and management.
- Assisted with the design and deployment of cloud solutions, ensuring scalability and reliability.
- Learned key concepts of cloud security, data management, and disaster recovery within the AWS environment.

British Petroleum (BP) July 2023 – August 2023

Information Technology Intern

- Provided IT infrastructure support to address employee issues and enhance operational efficiency.
- Worked closely with the IT team to identify areas for enhancement and implement innovative solutions to optimize performance.

E Finance June 2023 – July 2023

Java Software Developer Intern

- Utilized Java, JavaScript, and SQL to contribute to projects within the business solutions department.
- Assisted in the development and implementation of software solutions to improve business processes and enhance efficiency.

PROJECTS

Graduation Project An Ensemble-Based Prediction Model for English Premier League Match Results

- Designed and developed an intelligent prediction system that transforms football data into actionable insights using advanced machine learning and ensemble learning techniques.
- Leveraged Python, Scikit-learn, and PCA to clean, process, and model complex data for more accurate predictions.
- Created an interactive dashboard that visualizes performance trends and team comparisons, blending data science with real-world analytics storytelling.
- Showcased the power of combining data, creativity, and innovation to make smarter, data-driven decisions.

EDUCATION

British University in Egypt September 2021 – July 2025
Bachelor of Science in Informatics and Computer Science Cairo, Egypt

- Grade: Very Good with Honours

SKILLS

Languages : Python, SQL, DAX, C++, Java
Databases : Oracle, MySQL, MongoDB, Firebase, NoSQL
Data Analysis & BI Tools : Excel, Power BI, Tableau
Data Processing : Power Query, ETL
Data Warehousing : SSAS, SSRS, SSIS
Machine Learning : Pandas, NumPy, Scikit-learn, Matplotlib
Microsoft Office : Word, Excel, PowerPoint
Core Skills : Data Visualization, Statistical Analysis, Data Storytelling, Analytical Thinking

LANGUAGES

English : Fluent
Arabic : Native

CERTIFICATIONS

Forward Program Completion Badge – McKinsey.org, June 2026
Data Analysis Diploma – Certificate of Achievement – Route Academy, 2026
Recognized for outstanding performance as one of the top achievers.
Data Manipulation in SQL – DataCamp
PostgreSQL Summary Stats and Window Functions – DataCamp
Joining Data in SQL – DataCamp
Intermediate SQL – DataCamp
Introduction to SQL – DataCamp
Data Analysis in Excel – DataCamp
Introduction to Power Query in Excel – DataCamp
Data Preparation in Excel – DataCamp
Business Intelligence Development – ITI
Ultimate AWS Certified Cloud Practitioner (CLF-C02) – Course
Python for Machine Learning – AITB
